

CLP Master Plan

Sausage Sizzle for the Local CFA
Swan Hill College

Acknowledgment to Country

We would like to acknowledge the Wurundjeri and other Kulin Nations the traditional custodians of the land, air and water of which the Don Valley Campus resides on.

We would like to acknowledge the Wamba Wamba, Latji Latji, Tatti Tatti, Waddi Waddi and Barapa Barapa people, the traditional custodians of the land, air and water of which the Swan Hill College resides on.

Team Introduction

Elahna

I was hoping to develop more communication and leadership skills, as well as create many new relationships and memories. I would describe Swan Hill as a Medium sized town with lots of local businesses that allow our community to run. Swan Hill has lots of local sports that help our community run the way it does. I think this experience will help me develop those leadership skills and make me a more respectful person, as well as a better leader in my community. This opportunity has already changed me a lot and I am learning lots of new skills. I am so thankful for the opportunity to come here.

Chloe

I was hoping to develop better communication and leadership skills as well as create new friends and lots of memories. I would describe Swan Hill as a medium-sized country town with dozens of local businesses that support the town. Our town thrives on community sports and events. I think this experience is going to help me become a better, more respectful person as well as a better leader. This experience has already changed me for the better because my emotional management has already improved, and my collaboration skills have also become so much better. I am more of a leader than I used to be and I'm so grateful for this experience.

Jackson

I was hoping to get more leadership skills and better communication skills that will help me develop in life. Swan Hill is a small-town right on the Murray River, that goes above and beyond with community sports/events with almost everyone knowing each-other. Our local shops help make Swan Hill what it is by sponsoring community events and sports. This experience will help me during my journey of being a young leader. At the end of this experience, I hope I will be able to speak my mind and help others. I have already got a-lot out of this experience. Firstly, being able to speak in groups, as back at home I would normally stay quiet. Secondly, I now know what a good leader is. I thought a good leader was brave and strong but not all leaders need to be strong or brave. There are other characteristics that make a good leader and I now understand that.

Deklin

I was hoping for some new friends and memories that I can keep for the rest of my life and show why I wanted to come here and what I love here. I would describe Swan Hill as what you would think Australia would be in the whole country but in one town which is funny. I think what I got/am getting out of this program is a lot of leadership skills as well as some self-management and just getting better at putting myself out there. I think this could benefit me in the future because I would like to own my own business and to do that, I need to be a good leader and have lots of leadership skills. This would also help me get a job which I want to do after I leave SSL.

Harley

My focus is to develop an understanding of leadership qualities and be more extroverted than introverted. Swan Hill is a small – medium sized town with lots of local businesses that support each other. The location of the Murry River is incredible and the sports/events here are very memorable. This experience has helped me come out of my shell and talk to others that I don't even know with ease as I have shown leadership skills and have communicated like never before to others. I have also learnt what a real leader really is, I just thought they boss people around and be confident but no, there is a lot more to it than meets the eye and has opened so many more opportunities to my life and I'm so grateful for that!

Leonid

I was hoping that I would take a break from Swan Hill and go to some unknown place without my family because every time I moved somewhere different, I would always have my family with me but this time they're not involved, so at SSL I would be taking some time with myself. I don't really know how to describe Swan Hill all that well because I don't live there, but if I had to say something, I would say it's a moderately big town with a lot of accessible places like shops or restaurants. It has a bunch of different schools with different beliefs. Like ours, there's also a catholic school. Fun Fact: Swan Hill has the Murray River flowing through it. I think that this program has helped me experience how it's like to live in the same place as where you work and sleep in the same room with a complete stranger. Well, he's not a stranger anymore, we're actually good friends now. This experience will help me in the future if I leave my family to somewhere far away and if I won't get to see them for quite a while. I think now, I will feel more comfortable in an unfamiliar place by myself, and I will talk to people that I don't know.

James

I wanted to get out of this opportunity some Leadership skills, better connection, and lifelong friends. Swan hill is an amazing town. It is located on the Murry River. I think this experience will be a life changer, it will set me up for opportunities later in life like trying to join the Police Force later in life.

Overview

Our Swan Hill crew consists of: Elahna, Chloe, Jackson, Harley, Deklin, James, and Leonid. We would describe our town as a small- medium sized town surrounded by even smaller towns such as Lake Boga, Nyah, Woorinen, Ultima and Manangatang. Swan Hill is situated right along the Murray River. We have lots of local businesses that support our local community, events, and sports.

As a whole our group would like to be able to develop better/new leadership skills, memories, and new experiences. We would also like to build better communication skills that allow us to make new relationships.

Our school is located at 10-32 Pye Street Swan Hill. We go by the motto "Achieving excellence together". Swan Hill College schooled the children of the early settlers from the 1880's. State education in Swan Hill commenced on the current site, with the development of Swan Hill High School in 1927, and Swan Hill Technical School was established in 1961 to meet the growing demand for boys' vocational education. In 1993 the schools merged together to form what is now Swan Hill College.

Action Plan

Plan to raise money for the CFA

Organise the date and our location to sell sausages

Set up where we will be selling sausages

Run the sausage sizzle and raise money

Donate the money to the CFA

Action Plan

Before SSL:

- Before coming to the School for Student Leadership (SSL), we had discussed ideas for our Community Learning Project (CLP).
- We wrote them down and had to figure out the most realistic and achievable project.

At SSL:

- At SSL we had decided on a clearer goal for our CLP, the CFA fundraiser. We figured out that the easiest way to do that would be to organize a sausage sizzle.
- Something else we had to do was to work out the budget for everything including the price of resources.
- We then made posters to advertise and inform people how the event is going to run and so that they actually know that it's happening.

In the Future:

- After SSL, we will go back to Swan Hill, where we will put up the posters around town and the College.
- We will be supplied with the resources by Coles, and then we will run our sausage sizzle.
- After our sausage sizzle event we will round up all our donations and hand it over to the Swan Hill CFA

Budget

Goal=\$1000 -----

A 24 pack of beef snags from woolies is \$12

We are going to buy 12 packs of the 24 beef snags which is going to cost \$144 but if we get \$150 sponsor from woolies we won't be paying for the snags

White bread costs \$4.40

We need 30 loafs of white bread each loaf has 14 pieces of breads not including end pieces

We are hoping for sponsors from Coles, Woolies and the local Wholesalers and our school

All together without sponsors everything is going to cost about \$600

If we are sponsored by our School, Woolies and Coles the overall cost that we have to pay will be reduced by a lot.

Recources

Bunnings car park

Gazebo

BBQ

Coolers

Drinks

Food

Ice

Cooking equipment

Cash

Eftpos machine

Cash Till

Project Detail

This project was easy to come up with because one of our members (Chloe) is a CFA Junior Member . She got in contact and found out that they could use some funds. This was a perfect opportunity to base our community learning project on.

Our school is reasonably close to the Bunnings, and they organize sausage sizzles, so we had the idea of using that to our advantage. We would be using the Bunnings facility for our own sausage sizzle that raises money for the CFA.

We are currently working out the price of everything. This would all be too much to pay for us and we are currently discussing getting a sponsor from Coles.

Acknowledgments

Swan Hill College crew would like to acknowledge Swan Hill College firstly. We would not have been able to get this amazing life-changing opportunity without them. The staff have made us feel supported by their efforts to stay connected with us throughout our time. We would like to give a special shout out to Mark Snel for his consistent effort to stay connected with us.

We would like to acknowledge Harold Jochs the Captain of the Swan Hill Fire Brigade. He helped us plan this project and provided us with CFA volunteers to help out on the day.

Swan Hill College would also like to give a huge thanks to Coles for sponsoring us and donating us the supplies needed.

We would also like to acknowledge the staff here at SSL. They have all made our time here special and unforgettable. They have all contributed in different ways and we could not thank them enough. From the regular class teachers to the overnight supervisors, they have all helped us grow as individuals and taught us valuable lessons. We honestly could not have asked for a more supportive and welcoming team of staff members to support and encourage us throughout our individual journeys here at SSL. Special Thanks to Brodie Clapperton, Tom Stayner, Abbey Cook, Rebekah Gathercole, Matt Godenzi, Jessica Bretherton, Josie McLachlan, James O'Hagan, Ethan Brumhead, Indi Bosen, Tom Barr, Simon McLachlan, Bella Strathairn, and Laura Mounsey for teaching us all valuable lessons and encouraging us to all grow as a person. The Swan Hill College crew would also like to give a big shout out to the Kitchen Staff, Rebecca Finlay, Paul Martin, Trudy, and Annette for providing us with amazing food throughout our stay here at SSL. Also, a big thank you to the cleaners Annette and Jody for keeping this place clean. A big special thanks to Nicki Bosen who has provided us with medical support and care and has taken care of everything including the post, the shop and has kept this place running smoothly. Without her lovely personality and her dedication this place would not be what it is today.
